

LOUISIANA AGRICULTURAL EXPERIMENT STATION

2009 LOUISIANA CORN HYBRID PERFORMANCE TRIALS

The LAES is now accepting applications for the 2009 corn hybrid performance trials. Please write the exact name for each entry as to how you want it printed in reporting media, including blanks and capitalization.

Coordinator:

Dr. Rick Mascagni, Professor
Northeast Research Station
4589 Hwy. 605
P.O. Box 438
St. Joseph, LA 71366

Office: 318.766.3769 **Cell** 318.282.2379 **FAX:** 318.766.4278

E-mail: hmascagni@agcenter.lsu.edu

Seed Shipping Address: Same as above

Test Locations: The performance trials are planned to be conducted at the Dean Lee Research Station at Alexandria, the Red River Research Station at Bossier City, the Northeast Research Station on a clay soil at St. Joseph, the Northeast Research Station on a loam soil at St. Joseph, and the Macon Ridge Branch Station at Winnsboro.

EXPERIMENTAL DESIGN and DATA COLLECTION: A randomized complete block design will be used at each location with at least four replications. Targeted data collected from each location will include grain yield, grain moisture, test weight, plant population, mid-silk date, plant height, ear height, husk cover, and disease ratings.

AMOUNT OF SEED REQUIRED: 10 lbs. of high quality seed is required for each entry. Please use **conventional fungicide/insecticide-treated seed**. In relation to the insecticide seed treatment, we recommend using either Poncho 250 or Cruiser 250. Additionally, we will be applying a 0.5-0.75 lb rate of Counter 15G or Lorsban 15G across the entire experimental area. It is the responsibility of the submitting agency to insure that seed purity and quality are acceptable.

ENTRY FEE: \$500.00/entry.

DEADLINES:

Entry Form due January 15, 2009

Seed due February 1, 2009

REMISSION OF FEES:

You will be billed after tests have been planted. **Please do not send a check with the seed.** Payment of fees is due within 14 days after you have received an invoice from us.
