

Ag Adventures 2009

Delhi, Louisiana

Ag Adventures, which is scheduled for Tuesday, February 10th and Wednesday, February 11th, is filling up fast with third and fourth graders from 16 area schools.

To date, **1,103 children** are making plans to walk through Ag Adventures, which is an interactive educational experience for third and fourth graders. Local children are looking forward to learning how cotton and sweet potatoes are grown and used, experiencing animal production through the mini-farm, and learning the management practices for horses.

Teachers will also be given a CD containing lesson plans that will reinforce the educational experience that the students will receive from this hands-on learning event. *For more information, contact the Richland Parish office of the LSU AgCenter at 318-728-3216.*
